+966 56 603 8906

An integrated contracting and workforce solutions partner supporting organisations across Saudi Arabia and the GCC with manpower, technical execution, operations support, and AI-enabled business development.

ABOUT US

A Brief Story About The Company

PW International Contracting Company is a multidisciplinary operating partner for organisations that need reliable manpower, controlled execution, and practical project-cycle support.

The company supports clients across Saudi Arabia and the GCC through workforce solutions, contracting execution, technical and engineering support, recruitment and mobilisation, telecom and data services, HSE, logistics, facilities management, and AI-enabled business development.

Our approach is simple: mobilise with control, execute with discipline, and report with clarity.

WHY CHOOSE PWI

The principles behind PWI's daily operations

01

Rapid Mobilisation

Rapid movement from requirement to work-ready manpower and site support.

02

24/7 Support

Responsive operational coordination for urgent workforce, site, and project needs.

03

GCC Experience

Practical service capability across Saudi Arabia and the wider GCC operating environment.

04

Skilled Manpower

A strong workforce base supporting clients across construction, industrial, telecom, facilities, and hospitality sectors.

05

Compliance-Ready

Support for documentation, onboarding, PPE, safety readiness, and deployment requirements.

06

Skilled & Unskilled Supply

Flexible manpower supply covering technical, civil, industrial, hospitality, and support roles.

07

Technical Support Teams

Engineering, MEP, telecom, supervision, maintenance, and field coordination support.

08

Multi-Sector Capability

Experience across construction, telecom, industrial, facilities, logistics, hospitality, and commercial environments.

MANPOWER CATEGORIES

Saudi Market Workforce Supply

PWI supplies skilled, semi-skilled, and unskilled manpower across civil, MEP, telecom, industrial, hospitality, and operational support sectors. Each category is aligned with project requirements, site readiness, and deployment needs.

Civil Workforce

Mason — Brickwork, blockwork, plastering, and general masonry support.

Carpenter — Formwork, shuttering, woodwork, and site carpentry tasks.

Steel Fixer — Reinforcement steel cutting, bending, fixing, and installation.

Painter — Interior, exterior, finishing, coating, and touch-up works.

Scaffolder — Scaffold erection, dismantling, and safe access support.

Civil Helper — General support for civil teams and site activities.

General Labour — Material handling, cleaning, loading, and site assistance.

Finishing Worker — Final finishing, repair, surface preparation, and detailing.

MEP Workforce

Electrician — Electrical installation, wiring, panels, lighting, and maintenance.

HVAC Technician — AC systems, ventilation, cooling units, and maintenance.

Plumber — Water lines, drainage, sanitary fittings, and plumbing repairs.

Pipe Fitter — Pipe installation, alignment, fitting, and mechanical support.

Ductman — Duct fabrication, installation, insulation, and air-flow support.

AC Technician — AC installation, troubleshooting, servicing, and repair.

MEP Helper — Assistance for electrical, mechanical, and plumbing teams.

Maintenance Technician — Routine maintenance, inspections, and minor repairs.

Telecom Workforce

Rigger — Tower work, antenna installation, climbing, and telecom site support.

Fiber Technician — Fiber cable pulling, splicing, testing, and maintenance.

MW Engineer — Microwave link installation, alignment, testing, and support.

Telecom Technician — Site installation, cabling, equipment setup, and field support.

Network Technician — Network setup, troubleshooting, and connectivity support.

Tower Technician — Tower maintenance, equipment mounting, and inspection support.

Cable Puller — Cable routing, pulling, labelling, and installation assistance.

Data Technician — Data cabling, rack support, termination, and testing.

MANPOWER CATEGORIES

Industrial, Hospitality & Site Operations

PWI extends manpower support beyond construction and telecom, helping clients with industrial operations, hospitality staffing, site supervision, transport, accommodation, and daily workforce coordination.

Industrial Workforce

- Forklift Operator — Material movement, loading, unloading, and warehouse support.
- Machine Operator — Machine handling, production support, and equipment operation.
- Welder — Welding, fabrication, repair, and metalwork support.
- Fabricator — Cutting, fitting, assembling, and fabrication of metal components.
- Warehouse Worker — Inventory handling, packing, storage, and dispatch support.
- Factory Helper — Production-line assistance, material handling, and cleaning support.
- Equipment Operator — Operation of site or industrial machinery as required.
- Industrial Technician — Technical support for industrial maintenance and operations.

Hospitality Workforce

- Waiter — Guest service, table service, order handling, and dining support.
- Housekeeping Staff — Room cleaning, facility upkeep, and hygiene support.
- Kitchen Helper — Food preparation support, cleaning, and kitchen assistance.
- Steward — Dishwashing, kitchen hygiene, and back-of-house support.
- Cleaner — General cleaning, sanitation, waste handling, and upkeep.
- Laundry Staff — Washing, ironing, sorting, and linen handling support.
- Room Attendant — Room preparation, guest-area cleaning, and service readiness.
- Support Staff — General hospitality assistance based on operational needs.

Site & Operational Support

- Site Supervisor — Workforce coordination, attendance, task follow-up, and reporting.
- Safety Officer — Site safety monitoring, PPE checks, and HSE coordination.
- Store Keeper — Material records, inventory control, and store management.
- Driver — Workforce transport, site movement, and logistics support.
- Timekeeper — Attendance tracking, timesheets, and manpower records.
- Document Controller — Documentation, filing, approvals, and record control.
- Camp Boss — Camp coordination, worker support, and accommodation management.
- Logistics Coordinator — Movement planning, dispatch support, and resource coordination.

SOLUTIONS

INTEGRATED SOLUTIONS

How PWI responds

PWI brings multiple service lines into one practical delivery structure, helping clients move from requirement to mobilisation, execution, control, and reporting.

Contracting & Workforce Solutions

Manpower support aligned with scope, timeline, skills, documentation, and site reality.

Turnkey & Technical Delivery

Structured support across contracting, engineering, MEP coordination, supervision, QA/QC, and handover.

AI Business Development Layer

Commercial intelligence support for target-account research, lead enrichment, outreach preparation, CRM hygiene, and pipeline reporting.

Operations Support

Telecom and data services, HSE, logistics, transport, and facilities management for continuity and field performance.

SERVICE OVERVIEW

One company. Multiple delivery lines. One operating structure.

PWI provides integrated support across workforce, contracting, engineering, mobilisation, telecom, HSE, logistics, facilities, and AI-enabled business development.

The service model is designed for clients that need practical execution, not scattered vendors.

Build & Mobilise

Turnkey Contracting, Technical & Engineering Support, Contracting & Workforce Solutions, Recruitment & Mobilisation.

Operate & Grow

Telecom & Data Services, HSE, Logistics & Transport, Facilities Management, AI Business Development.

MANPOWER & SPECIALIZED SERVICES

Workforce Solutions Outsourcing

Flexible staffing solutions designed to match each client's project, operational, and site requirements.

Temporary & Contract Staffing

Short-term and project-based manpower support for urgent requirements, seasonal demand, and specialised assignments.

Hospitality Workforce Solutions

Waiters, housekeeping staff, kitchen helpers, cleaners, and support teams for hotels, restaurants, and hospitality operators.

Security Services

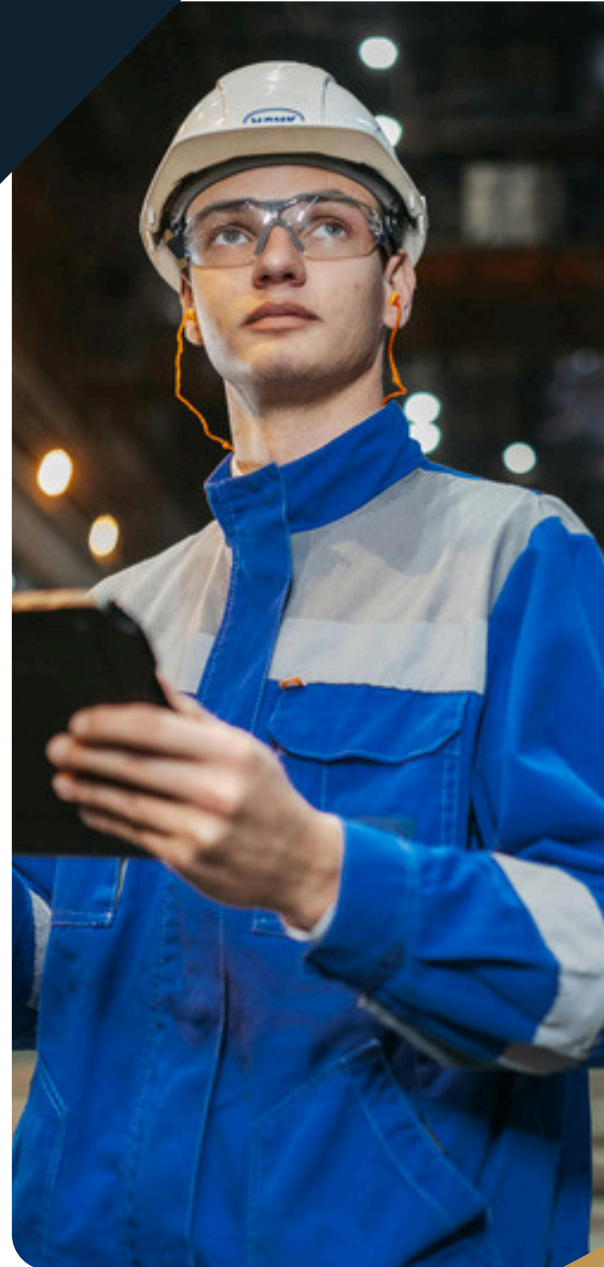

Trained security personnel to support site safety, asset protection, access control, and operational discipline.

Telecom & Data Center Services

Technical manpower and field support for telecom operations, data infrastructure, maintenance, and network readiness.

Recruitment & Visa Consultancy

International hiring, documentation, visa support, onboarding, mobilisation, and deployment coordination.

OPERATING TIMELINE

PHASE 01 — Requirement Brief

Client requirements, scope, location, workforce need, service expectations, and timeline are documented.

PHASE 02 — Planning & Alignment

PWI aligns resources, documentation, compliance needs, technical support, and operational responsibilities.

PHASE 03 — Mobilisation & Execution

Approved resources and service teams are mobilised, supervised, and managed according to site requirements.

PHASE 04 — Control & Reporting

Progress, quality, safety, readiness, and delivery status are tracked and reported to management.

PROJECTS

EXPERIENCE

Telecom Projects

Support for telecom and data-related field operations, technical manpower, site coordination, installation assistance, maintenance support, and reporting.

Manpower Supplied

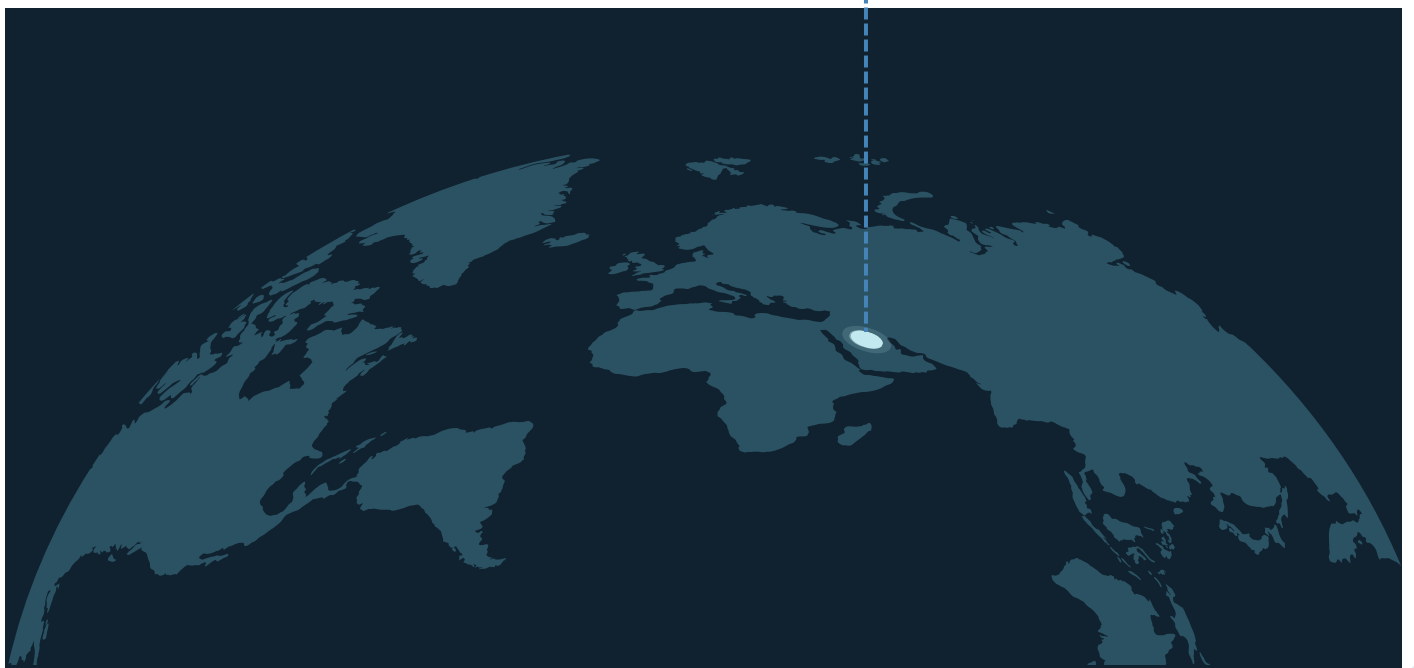

Provision of skilled, semi-skilled, and unskilled manpower across civil, MEP, telecom, industrial, facilities, logistics, and hospitality environments.

Facility Management

Support for hard services, soft services, maintenance coordination, cleaning, inspections, utilities support, and operational continuity.

Industrial Support

Manpower and technical assistance for industrial environments requiring equipment handling, welding, machine operations, safety awareness, supervision, and transport support.

PWI supports major project environments and approved contractors across Saudi Arabia through manpower, technical, and operational service delivery.

PROJECT CAPABILITY

Priority client environments

PWI is positioned for organisations that require manpower, site execution, technical coordination, operations support, and controlled reporting.

Construction & Infrastructure

Civil workforce, MEP support, site supervision, equipment coordination, manpower mobilisation, and project execution support.

Telecom & Data Services

Riggers, fiber technicians, MW engineers, telecom technicians, network support teams, site coordination, and maintenance assistance.

Hospitality & Commercial Support

Waiters, housekeeping staff, kitchen helpers, cleaners, support staff, and service teams for hospitality and commercial operations.

Industrial & Manufacturing

Forklift operators, machine operators, welders, technicians, factory helpers, maintenance support, and industrial manpower supply.

Facilities & Operations

Maintenance, cleaning, accommodation, transport, and site continuity services.

CONSTRUCTION & FIELD TEAMS

On-site manpower, supervision, and technical support

PWI supports construction, industrial, telecom, and infrastructure projects with field-ready teams across Saudi Arabia. Our workforce assists clients with civil works, site execution, MEP support, telecom infrastructure, safety coordination, and daily project operations.

From mobilisation to site supervision, our focus is simple: provide dependable people, maintain safe working practices, and support smooth progress on the ground.

Civil works | Telecom support | Industrial services | HSE coordination | Site supervision

PWI teams supporting active construction, industrial, and telecom field operations.

VEHICLES & TRANSPORT SUPPORT

Mobility support for manpower, sites, and daily operations

PWI supports project operations with practical transport coordination for workforce movement, site access, equipment support, and daily mobilisation needs.

Our transport support helps deployed teams reach project locations on time, move safely between sites, and maintain smoother coordination across construction, industrial, telecom, and infrastructure environments.

Worker movement | Site access | Daily mobilisation | Equipment support | Logistics coordination

PWI transport support for field teams, site operations, and project mobilisation.

WORKFORCE WELFARE & CANTEEN SUPPORT

Supporting deployed teams with daily care and operational readiness

PWI understands that reliable site performance depends on more than manpower deployment. Workers need organised support, proper coordination, and a clean environment that helps them stay ready for daily operations.

Through welfare, meal, accommodation, and camp coordination support, PWI helps maintain workforce discipline, morale, and continuity across active project locations.

Meal coordination | Camp support | Workforce welfare | Daily readiness | Site continuity

PWI transport support for field teams, site operations, and project mobilisation.

TELECOM SECTOR

Field-ready support for connected infrastructure

PWI supports telecom and data-service operations through skilled manpower, technical field teams, site coordination, installation assistance, maintenance support, and deployment-ready resources.

Our telecom capability is designed for contractors, operators, vendors, and project partners that need reliable site support, quick mobilisation, and coordinated field execution across Saudi Arabia and the GCC.

Telecom Manpower Supply

PWI provides telecom-focused manpower for field operations, network support, tower sites, fiber works, microwave links, and technical assistance.

Key roles include:

Riggers, fiber technicians, MW engineers, telecom technicians, network technicians, tower technicians, cable pullers, and data technicians.

Field Operations Support

Our teams assist with site readiness, equipment handling, installation support, cable routing, tower activity coordination, documentation, and daily reporting. This helps telecom contractors maintain smoother execution across multiple locations and project requirements.

Data & Network Services

PWI supports telecom and data environments through cabling assistance, rack support, termination, testing coordination, fiber-related work, and field-level troubleshooting support.

Maintenance & Continuity

We provide manpower and coordination support for ongoing maintenance, inspection assistance, service continuity, issue escalation, and operational follow-up.

CLIENTS EXPERIENCE

Trusted by Clients, Contractors & Project Partners

PWI supports clients, contractors, and project partners that require dependable manpower, technical execution, facility support, industrial manpower, and controlled site operations.

			 مجموعة عصام خيري قباني Isam Khairi Kabbani Group	 شركة مكي كة للخدمات الاعمال المحدودة
				 الشركة الكيميائية السعودية المحدودة Saudi Chemical Company Limited
			 بلاستيكوس SAUDI PLASTIC PACKAGING SYSTEMS	 شركة مجموعة الغندورة الصناعية GHANDOURA INDUSTRIAL GROUP COLTD

Representative Engagement Areas

Telecom & Technology Support

Field manpower, telecom teams, technical assistance, and coordination support.

Industrial & Manufacturing Support

Manpower and operational support for industrial and manufacturing clients.

Construction & Contractor Support

Civil manpower, MEP support, supervision, site readiness, and deployment coordination.

Facilities & Operations Support

Maintenance, cleaning, accommodation, transport, and site continuity services.

HOW WE OPERATE

Requirement Gathering

We understand the client's workforce, project, site, technical, and timeline requirements.

Proposal & Commercials

A tailored proposal is prepared with scope, service structure, manpower details, and commercial terms.

Contract Signing

Once approved, the agreement is finalised to secure timelines, responsibilities, and delivery expectations.

Candidate Sourcing & Selection

Candidates are sourced, screened, shortlisted, and matched according to role, skill, project, and compliance needs.

Mobilisation & Documentation

PWI coordinates documentation, onboarding, medical, insurance, travel, visa support, PPE, and mobilisation readiness.

Deployment to Site

Approved manpower and support teams are deployed to the required location, ready to begin work.

Supervision & Reporting

Site supervisors and coordination teams support attendance, discipline, progress, issues, and client reporting.

QUALITY & SAFETY COMMITMENT

Operational discipline built into delivery

PWI treats quality and safety as part of execution, not as separate afterthoughts. The company's delivery approach supports risk awareness, site responsibility, compliance readiness, and controlled reporting.

Quality & safety commitment

100%

9 Service Lines

Integrated
delivery platform

ORGANIZATION STRUCTURE

Management / Executive Leadership

Strategic direction, client relationships, approvals, business development, and overall company supervision.

Operations Department

Project coordination, manpower allocation, daily delivery, client communication, and service execution.

HR & Mobilisation Department

Recruitment support, documentation, onboarding, visa coordination, workforce readiness, and deployment planning.

HSE Department

Safety readiness, PPE coordination, risk control, compliance support, training, and site safety monitoring.

Finance & Administration

Payroll coordination, invoicing, vendor records, document control, cost tracking, and administrative reporting.

Site Supervisors

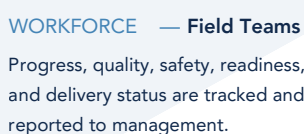

Daily workforce supervision, attendance follow-up, task coordination, discipline, issue escalation, and site reporting.

Field Teams

Skilled, semi-skilled, unskilled, technical, industrial, telecom, hospitality, and facility support manpower.

PWI aligns resources, documentation, compliance needs, technical support, and operational responsibilities.

AI IN BUSINESS DEVELOPMENT

AI Business Development is a commercial support layer within PWI's wider service platform. It does not replace the company's contracting and workforce identity; it strengthens how clients and business teams identify opportunities, prepare outreach, and manage pipeline visibility.

RESEARCH

Identify target accounts, industries, decision-makers, and market opportunities with structured AI-assisted research.

TARGETING

Prioritise high-fit companies based on relevance, industry, location, service need, and business potential.

ENRICHMENT

Organise company data, contacts, websites, LinkedIn profiles, and available business signals into usable lead records.

OUTREACH

Prepare personalised outreach messages, email drafts, follow-up angles, and client-specific communication points.

CRM HYGIENE

Keep lead records cleaner, reduce duplicate data, update statuses, and maintain better pipeline visibility.

REPORTING

Turn business development activity into clear dashboards, follow-up lists, opportunity summaries, and management reports.

RESOURCES

PWI's delivery strength comes from coordinated teams that understand manpower requirements, field execution, safety expectations, client communication, and reporting needs.

VEHICLES & TRANSPORT SUPPORT

Transport coordination for worker movement, site access, daily mobilisation, operational travel, and logistics support.

SUPERVISORS & SITE COORDINATION

Dedicated supervisors for workforce follow-up, attendance, discipline, task coordination, client communication, and reporting.

TOOLS & WORK SUPPORT

Basic tools, site support resources, equipment coordination, and work assistance based on project requirements.

ACCOMMODATION SUPPORT

Worker accommodation coordination, camp support, movement planning, and continuity assistance for deployed teams.

PPE & SAFETY MATERIALS

Personal protective equipment support, HSE readiness, safety coordination, and compliance-aware field preparation.

OPERATIONAL SUPPORT

Documentation follow-up, mobilisation tracking, daily reporting, issue escalation, resource coordination, and service continuity.

THANK YOU

PW International Contracting Company

Thank you for reviewing the PWI company profile.

We welcome the opportunity to discuss your project scope, workforce requirements, technical support needs, or business development objectives.

PWI is built to support organisations that value disciplined mobilisation, practical execution, and clear reporting.

Let's build with clarity.
